

## List of publications

1. Tazawa, H., Wada, T., Oguni, C. and Yoshimoto, C. 1968.  
Inserted intrauterine transmitter for measurement of fetal heart rate.  
*Med. biol. Engng.* 6: 549-551.
2. Tazawa, H. and Yochimoto, C. 1969.  
Simple delay device for analog signals.  
*Med. biol. Engng.* 7: 429-433.
3. Tazawa, H. and Yoshimoto, C. 1969.  
Simple method for analog delay.  
*Med. biol. Engng.* 7: 569-570.
4. Tazawa, H. and Yoshimoto, C. 1969.  
Electrocardiographic potential distributions in newborn infants from 12 hours to 8 days after birth.  
*Am. Heart. J.* 78: 292-305.
5. Tazawa, H. 1970.  
Measurement of O<sub>2</sub> content in microliter blood samples.  
*J. Appl. Physiol.* 29: 414-416.
6. Allison, J., Beebe, J., Bartschi, A., Gottschalk, W. and Tazawa, H. 1970.  
The response of the carotid sinus chemoreceptor reflex to time varying Po<sub>2</sub>.  
*Fed. Proc.* 29: 951.
7. Tazawa, H. 1971.  
Measurement of respiratory parameters in blood of chicken embryo.  
*J. Appl. Physiol.* 30: 17-20.
8. Tazawa, H., Mikami, T. and Yoshimoto, C. 1971.  
Respiratory properties of chicken embryonic blood during development.  
*Respir. Physiol.* 13: 160-170.
9. Tazawa, H., Mikami, T. and Yoshimoto, C. 1971.  
Effect of reducing the shell area on the respiratory properties of chicken embryonic blood.  
*Respir. Physiol.* 13: 352-360.
10. Tazawa, H. 1972.  
Gas exchange in chicken embryo.  
*Monograph Series Res. Inst. Appl. Electr., Hokkaido Univ.* 20: 1-15.
11. Tazawa, H. 1973.  
Hypothermal effect on the gas exchange in chicken embryo.  
*Respir. Physiol.* 17: 21-31.

12. Mochizuki, M., Tazawa, H. and Ono, T. 1973.  
Microphotometry for determining the reaction rate of O<sub>2</sub> and CO with red blood cells in the chorioallantoic capillary.  
In: *Oxygen Transport to Tissue*. Ed. by Bruley, D. F. and Bicher, H. I. 997-1006, Plenum Pub. Corp., New York.
13. Tazawa, H. and Ono, T. 1974.  
Microscopic observation of the chorioallantoic capillary bed of chicken embryos.  
*Respir. Physiol.* 20: 81-90.
14. Tazawa, H., Ono, T. and Mochizuki, M. 1974.  
Reaction velocity of carbon monoxide with blood cells in the chorioallantoic vascular plexus of chicken embryos.  
*Respir. Physiol.* 20: 161-170.
15. Ono, T. and Tazawa, H. 1975.  
Microphotometric method for measuring the oxygenation and deoxygenation rate in a single blood cell.  
*Jap. J. Physiol.* 25: 93-107.
16. Tazawa, H., Ono, T. and Mochizuki, M. 1976.  
Oxygen dissociation curve for chorioallantoic capillary blood of chicken embryo.  
*J. Appl. Physiol.* 40: 393-398.
17. Tazawa, H., Ono, T. and Mochizuki, M. 1976.  
Oxygenation and deoxygenation velocity factors of chorioallantoic capillary blood.  
*J. Appl. Physiol.* 40: 399-403.
18. Tazawa, H. and Mochizuki, M. 1976.  
Rates of oxygenation and Bohr shift of capillary blood in chick embryos.  
*Nature* 261:509-511.
19. Tazawa, H. and Mochizuki, M. 1976.  
Estimation of contact time and diffusing capacity for oxygen in the chorioallantoic vascular plexus.  
*Respir. Physiol.* 28: 119-128.
20. Mochizuki, M. and Tazawa, H. 1976.  
Measurement of oxygenation and deoxygenation of a single red cell of chicken embryo by means of a microphotometer.  
*Oxygen Transport to Tissue - II.* 121-130.
21. Tazawa, H. and Mochizuki, M. 1977.  
Oxygen analysis of chicken embryo blood.  
*Respir. Physiol.* 31: 203-215.
22. Tazawa, H., Sasaki, T. and Mochizuki, M. 1977.  
The Bohr shift of the red blood cell within the chorioallantoic capillary of chick embryos.  
*Proc. of Inter. Union of Physiol. Sci. (Paris)*: 746.

23. Tazawa, H. and Mochizuki, M. 1978.  
Analysis of oxygen transport in bullfrogs.  
*Oxygen Transport to Tissue-III*. 199-204.
24. Tazawa, H. 1978.  
Gas transfer in the chorioallantois.  
In: *Respiratory Function in Birds, Adult and Embryonic*. ed. by J. Piiper,  
Springer-Verlag, Berlin, pp. 274-291.
25. Tazawa, H. and Mochizuki, M. 1978.  
Oxygen transport in chicken embryos under hypothermal exposure.  
*Respir. Physiol.* 32: 325-334.
26. Tazawa, H. and Mochizuki, M. 1978.  
Incompletely separated double circulation and oxygen transport in the bullfrogs,  
*Rana catesbeiana*: Experimental data and model analysis.  
*Pflugers Archiv.* 373: R21
27. Tazawa, H. and Mochizuki, M., Piiper, J. 1978.  
Le transport des gaz respiratoires par la circulation chez la Grenouille *Rana*  
*catesbeiana*.  
*J. Physiol. (Paris)* 74: 47A.
28. Piiper, J., Mochizuki, M. and Tazawa, H. 1978.  
Le taux de melange des sangs arterialise et veineux dans le caeur de la Grenouille  
*Rana catesbeiana*.  
*J. Physiol. (Paris)* 74: 43A.
29. Tazawa, H., Ar, A., Visschedijk, A. H. J., Rahn, H. and Piiper, J. 1978.  
Diffusive respiratory alkalosis and metabolic changes induced in the chick embryo  
by a helium atmosphere.  
*The Physiologist* 21: 119.
30. Tazawa, H., Mochizuki, M. and Piiper, J. 1979.  
Blood oxygen dissociation curve of the frogs, *Rana catesbeiana* and *Rana brevipoda*.  
*J. Comp. Physiol.* 129B: 111-114.
31. Tazawa, H., Mochizuki, M. and Piiper, J. 1979.  
Respiratory gas transport by the incompletely separated double circulation in the  
bullfrog, *Rana catesbeiana*.  
*Respir. Physiol.* 36: 77-95.
32. Tazawa, H., Ar, A., Rahn, H. and Piiper, J. 1980.  
Repetitive and simultaneous sampling from the air cell and blood vessels in the  
chick embryo.  
*Respir. Physiol.* 39: 265-272.
33. Tazawa, H. 1980.  
Oxygen and CO<sub>2</sub> exchange and acid-base regulation in the avian embryo.  
*Amer. Zool.* 20: 395-404.

34. Piiper, J., Tazawa, H., Ar, A. and Rahn, H. 1980.  
Analysis of chorioallantoic gas exchange in the chick embryo.  
*Respir. Physiol.* 39: 273-284.
35. Tazawa, H. 1980.  
Adverse effect of failure to turn avian egg on the embryo oxygen exchange.  
*Respir. Physiol.* 41: 137-142.
36. Tazawa, H. 1981.  
Compensation of diffusive respiratory disturbances of the acid-base balance in the chick embryo.  
*Comp. Biochem. Physiol.* 69A: 333-336.
37. Tazawa, H., Piiper, J., Ar, A. and Rahn, H. 1981.  
Changes in acid-base balance of chick embryos exposed to a He or SF<sub>6</sub> atmosphere.  
*J. Appl. Physiol.* 50: 819-823.
38. Tazawa, H. 1981.  
Effect of O<sub>2</sub> and CO<sub>2</sub> in N<sub>2</sub>, He and SF<sub>6</sub> on chick embryos blood pressure and heart rate.  
*J. Appl. Physiol.* 51: 1017-1022.
39. Tazawa, H. 1981.  
Measurement of blood pressure of chick embryo with an implanted needle catheter.  
*J. Appl. Physiol.* 51: 1023-1026.
40. Mochizuki, M., Tazawa, H., Niizeki, K. and Tamura, M. 1981.  
Relationship between veno-arterial CO<sub>2</sub> content difference and veno-alveolar Pco<sub>2</sub> difference in acute hypercapnia in dogs.  
*Jap. J. Physiol.* 31: 345-355.
41. Tazawa, H., Tamura, M. and Mochizuki, M. 1981.  
Blood carbon dioxide dissociation curves of developing chick embryos and chickens.  
*The Physiologist.* 24: 58.
42. Tazawa, H. 1981.  
Compensating processes for metabolic and respiratory acid-base disturbances in the chick embryo.  
*The Physiologist.* 24: 136.
43. Tazawa, H. 1982.  
Regulatory processes of metabolic and respiratory acid-base disturbances in embryos.  
*J. Appl. Physiol.* 53: 1449-1454.
44. Mochizuki, M., Tazawa, H. and Tamura, M. 1982.  
Mathematical formulation of the CO<sub>2</sub> dissociation curve and buffer line of human blood at rest.  
*Jap. J. Physiol.* 32: 231-244.

45. Tazawa, H., Visschedijk, A. H. J. and Piiper, J. 1983.  
Blood gases and acid-base status in chicken embryos with naturally varying egg shell conductance.  
*Respir. Physiol.* 54: 137-144.
46. Tazawa, H., Mochizuki, M., Tamura, M. and Kagawa, T. 1983.  
Quantitative analyses of the CO<sub>2</sub> dissociation curve of oxygenated blood and the Haldane effect in human blood.  
*Jap. J. Physiol.* 33: 601-618.
47. Tazawa, H., Visschedijk, A. H. J., Wittmann, J. and Piiper, J. 1983.  
Gas exchange, blood gases and acid-base status in the chick before, during and after hatching.  
*Respir. Physiol.* 53: 173-185.
48. Mochizuki, M., Takiwaki, H., Kagawa, T. and Tazawa, H. 1983.  
Deviation of theoretical equation of the CO<sub>2</sub> dissociation curve and the carbamate fraction in the Haldane effect.  
*Jap. J. Physiol.* 33: 579-599.
49. Tazawa, H. 1983. Carbon dioxide transport and acid-base balance in chickens before and after hatching. Proc. of IUPS Satellite Symposium, Respiration and Metabolism of Embryonic Vertebrates. (Adelaide): 25.
50. Tazawa, H. and Piiper, J. 1984.  
Carbon dioxide dissociation and buffering in chicken blood during development.  
*Respir. Physiol.* 57: 123-134.
51. Tazawa, H. 1984.  
Carbon dioxide transport and acid-base balance in chickens before and after hatching. In: *Respiration and Metabolism of Embryonic Vertebrates*. ed. by R. S. Seymour, Dr W. Junk Pub., Dordrecht (The Netherlands), pp.333-345.
52. Tazawa, H. 1984.  
Cardiovascular shunts in the avian embryo and comparative model analysis of central shunts in vertebrates.  
Proc. of Alfred Benzon Symposium 21, Cardiovascular Shunts. (Copenhagen): 14-15.
53. Tazawa, H. and Nakagawa, S. 1985.  
Response of egg temperature, heart rate and blood pressure in the chick embryo to hypothermal stress.  
*J. Comp. Physiol.* 155B: 195-200.
54. Visschedijk, A. H. J., Tazawa, H. and Piiper, J. 1985.  
Variability of shell conductance and gas exchange of chicken eggs.  
*Respir. Physiol.* 59: 339-345.
55. Tazawa, H. and Takenaka, H. 1985.  
Cardiovascular shunt and model analysis in the chick embryo.  
In: *Cardiovascular Shunts*. eds. by K. Johansen and W. Burggren, Munksgard, Copenhagen, pp.179-198.

56. Tazawa, H., Lomholt, J. P. and Johansen, K. 1985.  
Direct measurement of allantoic blood flow in the chicken, *Gallus domesticus*.  
Responses to alteration in ambient temperature and  $P_{O_2}$ .  
*Comp. Biochem. Physiol.* 81A: 641-642.
57. Tazawa, H., Takenaka, H. and Suzuki, Y. 1985.  
Thermal step response of chicken eggs in altered environments.  
*The Physiologist* 28: 368.
58. Tazawa, H. and Rahn, H. 1986.  
Tolerance of chick embryos to low temperatures in reference to the heart rate.  
*Comp. Biochem. Physiol.* 85A: 531-534.
59. Tazawa, H. 1986.  
Acid-Base Equilibrium in Birds and Eggs.
